Cité Dakhla, Agadir

I am a software engineer, I have experience in web development, database administration, network security, network administration.

I made some projects using java, angular, php, codeigniter, sql, mysql and firebase.

Work Experience.

End of studies project

Design and implementation of a research laboratory management application using the Framework CodeIgniter | MARCH 2022 – JUNE 2022

This work is an end-of-studies project for a bachelor's degree in Mathematical Sciences and Computer Science (SMI), carried out in the Computer Science Department of the Faculty of Sciences Agadir (FSA)- Ibn Zohr University (UIZ).

Using CodeIgniter as a Framework I managed to create a web site of an application for the management of a laboratory research structure that will eventually help members of laboratory to access to their space even to post publication and make events..etc

Skills:

HTML|CSS|JavaScript|Bootstrap|jQuery|PHP|CodeIgniter|SQL|MySQL|Scrum

Education.

bachelor degree

Ibn zohr University
computer science and mathematics
Software engineering
Agadir
2019 – 2022

baccalaureate

Ibn Soulaymane rasmouki high school
mathematical science A
Tiznit
2018 – 2019

Certifications

LinkedIn|Injaz-Almaghrib|Microsoft

HTML|CSS|Js|jQuery|Bootstrap|Sql|Sass

Language.

English(Intermediate)

Arabic(Advanced)

French(Proficiency)

Skills

HTML CSS Bootstrap

JavaScript JQuery

Sass Angular C lanuage

PHP Java(JEE,SWING)

CodeIgniter Data structure

DatabaseAdministration(Oracle)

Sql MySQL PI/Sql

Firebase JSONE

Network Administration|

Unix Network Security
